

PRESS RELEASE

The HYMERCAR Sydney GT60: Special model like a second car

Bad Waldsee, 12 January 2018 – Hymer GmbH & Co. KG is presenting the HYMERCAR Sydney GT60 special model at the 2018 Exhibition for Caravaning, Motoring and Tourism. Available in three different models – White Line, Silver Line and Limited Edition – the trio offers the right mix of compact dimensions, flexibility and functionality. With the HYMERCAR Sydney GT60 special model, the manufacturer from Bad Waldsee has enhanced the only “window bus” on a Fiat Ducato chassis under five metres in length with a comprehensive equipment package and a modern design. This model, as well as most of the other camper vans, can be complemented with smart additions, such as the custom-designed, pull-out loading floor from HYMER Original Parts & Accessories.

With the HYMERCAR Sydney GT60 special model, Hymer GmbH & Co. KG is offering a camper van that is more suitable for everyday use and which is like a second car. Measuring a compact 4.96 metres in length, this model of the vehicle has room for up to five people thanks to the suspended seat and double bench seat. Car-like dimensions, as well as the removable furniture which is available as an optional extra, make the new special model the perfect urban vehicle – a real multi-purpose vehicle. One highlight on trips is the standard pop-top roof, which has been specially developed for the body length and is heated. Visually, it's perfectly integrated in the vehicle styling and boasts a particularly wide bed measuring 202 by 150 centimetres. With the rear double bed, up to four people can comfortably spend the night in the new Sydney GT60. The vehicle is particularly impressive on account of its compact dimensions, whilst an outdoor shower makes showering possible. The new camper van is ready for use as soon as it leaves the factory thanks to numerous additional items of equipment, such as the 150 hp engine, the LED daytime running light, the awning or the Fiat navigation system with DAB+ radio. The HYMERCAR Sydney GT60 is available in three modern models: the White Line gleams in a timeless white colour, the Silver Line features a striking metallic silver paint finish, and the Limited Edition is a real head-turner on account of its metallic-look bodywork and black pop-top roof, as well as 17" alloy rims and its high-quality leather finish. The Limited Edition is available with different metallic paint finishes and is limited to 60 vehicles.

PRESS RELEASE

Greater flexibility thanks to the pull-out loading floor from HYMER Original Parts & Accessories

The new pull-out loading floor from HYMER Original Parts & Accessories is the perfect solution for customers who are always on the road with lots of luggage: the pull-out loading floor made of high-quality, weight-optimised and sturdy aluminium profiles with an integrated birch wood panel is mounted on the lashing rails that have already been fitted in the HYMERCAR Sydney GT60 as standard. This means that large items of luggage weighing up to 100 kilograms can be stored and secured in place when it is retracted, or 60 kilograms when it is extended. Up to two bicycles can also be transported with ease thanks to appropriate fork mounts. In addition, the entire platform can be pushed out the back of the vehicle, allowing unhindered access to the storage spaces and the kitchen. An optional load-securing net also means that the luggage is perfectly stowed away, even when the vehicle is on the move.

The three HYMERCAR Sydney GT60 models and the pull-out loading floor from HYMER Original Parts & Accessories (optional for all HYMERCAR vehicles from model year 2014 onwards) are available on the market from January 2018.
